

Active carnitine Liposome

Catalog: Lipo-221C

PRODUCT INFORMATION

Name	Active carnitine Liposome
-------------	---------------------------

Cat No.	Lipo-221C
----------------	-----------

Product Overview	This formulation contains liposomes made of phospholipids from soy lecithin and Carnitine. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. L-Carnitine, an amino acid produced naturally in the body, is effective in treating oily skin. Also, is a skin-conditioning agent. This product is intended to produce specific lotions, creams, and gels. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.
-------------------------	--
