

Active Hydrolyzed Collagen Liposome

Catalog: Lipo-229C

PRODUCT INFORMATION

Name	Active Hydrolyzed Collagen Liposome
-------------	-------------------------------------

Cat No.	Lipo-229C
----------------	-----------

Product Overview	This formulation contains liposomes made of phospholipids from soy lecithin, hydrolyzed collagen. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. Collagen helps improve brightness of the skin, as well as increases elasticity and smoothness. Product designed to be used in cosmetic like cream, emulsions and gels in the range of 5 to 10 %
-------------------------	--
