

# Active Recombinant Fluorescent Human EDNRB Transmembrane protein, VLPs

**Catalog: BSRM-048V**

## PRODUCT INFORMATION

---

|                         |  |
|-------------------------|--|
| <b>Name</b>             | Active Recombinant Fluorescent Human EDNRB Transmembrane protein, VLPs         |
| <b>Cat No.</b>          | BSRM-048V  |
| <b>Source</b>           | HEK293   |
| <b>Product Overview</b> | Active Recombinant Human EDNRB is expressed in HEK293 and assembled into VLPs. |
| <b>Species</b>          | Human  |
| <b>Storage</b>          | Store at -80°C for 12 months. Avoid repeated freeze-thaw cycles.               |
| <b>Formulation</b>      | Lipid in sterile PBS, pH7.4 with trehalose as protectant.                      |
