

Positive Charge Microbubble

Catalog: MBF-09PC

PRODUCT INFORMATION

Name	Positive Charge Microbubble
Cat No.	MBF-09PC
Product Overview	Plain microbubble functionalized with a positive charged phospholipid on the surface, which could be used in DNA/RNA transfection
Application	Targeted capture Ultrasonic sorting Molecular imaging Drug/gene delivery
Concentration	>2.5E10 microbubbles/ml
Storage	2-8°C for up to 6 months
