

Active Algae extract Liposome

Catalog: Lipo-217C

This formulation contains liposomes made of phospholipids from soy lecithin and Algae extract. The liposomal delivery system protects the active ingredient making it to reaches the target cells more efficiently. Algae extract can prevent environmental direct oxidative damage at the skin surface and possesses an -aging activities. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.

PRODUCT INFORMATION

Product Name	Active Algae extract Liposome
Catalog Number	Lipo-217C
Product Overview	This formulation contains liposomes made of phospholipids from soy lecithin and Algae extract. The liposomal delivery system protects the active ingredient making it to reaches the target cells more efficiently. Algae extract can prevent environmental direct oxidative damage at the skin surface and possesses an -aging activities. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.
Active Ingredients	Algae Extract
Form	Viscous Nano Concentrates
Concentration	25%
Storage	Protected from light at room temperature.

USAGE GUIDELINES

General Handling	Avoid excessive mixing or vortexing to prevent aggregation. Long-term storage above -80°C may result in aggregate formation. Thaw on ice before use.
-------------------------	--

Storage	Short term: +2°C to +8°C (up to 1 week) Long term: -80°C (stable for 12 months)
Stability	Stable for 12 months at -80°C. Avoid repeated freeze-thaw cycles.
Freeze / Thaw	Can be frozen, but limit to ?3 freeze/thaw cycles to maintain particle integrity.

Important: This product is for **research use only**. Not intended for diagnostic or therapeutic applications. Please refer to the Safety Data Sheet (SDS) for complete handling and safety information.
