

Active Vitamin A & Vitamin E & Rosehip Liposome Complex

Catalog: Lipo-210C

This formulation contains liposomes made of phospholipids from soy lecithin, Rosehip extract, Vitamin A and Vitamin E. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. Vitamin A is a skin-restoring, wrinkle-smoothing, firming ingredient and an antioxidant, allowing it to improve a variety of skin concerns, most related to visible signs of aging. Vitamin E is one of the most well-known and researched antioxidants for the body and for skin. The rosehip seed, obtained from different plant species of the genus *Rosa*, is one of the most commonly used compounds for cosmetic improvement of skin scarring. This complex is intended to produce specific lotions, creams, and gels. Product designed to be used in cosmetic formulation in the range of 5 to 10 %.

PRODUCT INFORMATION

Product Name	Active Vitamin A & Vitamin E & Rosehip Liposome Complex
Catalog Number	Lipo-210C
Product Overview	This formulation contains liposomes made of phospholipids from soy lecithin, Rosehip extract, Vitamin A and Vitamin E. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. Vitamin A is a skin-restoring, wrinkle-smoothing, firming ingredient and an antioxidant, allowing it to improve a variety of skin concerns, most related to visible signs of aging. Vitamin E is one of the most well-known and researched antioxidants for the body and for skin. The rosehip seed, obtained from different plant species of the genus <i>Rosa</i>, is one of the most commonly used compounds for cosmetic improvement of skin scarring. This complex is intended to produce specific lotions, creams, and gels. Product designed to be used in cosmetic formulation in the range of 5 to 10 %.

Active Ingredients	Vitamin A; Vitamin E; Rosehip Extract
Application	Liposome production; Synthetic lipid
Form	Viscous Nano Concentrates
Concentration	Vit A: 1%, Vit E: 0.1%, Rosehip: 45%
Storage	Protected from light at room temperature.
Synonyms	Vitamin A; Vitamin E; Rosehip

USAGE GUIDELINES

General Handling	Avoid excessive mixing or vortexing to prevent aggregation. Long-term storage above -80°C may result in aggregate formation. Thaw on ice before use.
Storage	Short term: +2°C to +8°C (up to 1 week) Long term: -80°C (stable for 12 months)
Stability	Stable for 12 months at -80°C. Avoid repeated freeze-thaw cycles.
Freeze / Thaw	Can be frozen, but limit to 3 freeze/thaw cycles to maintain particle integrity.

Important: This product is for **research use only**. Not intended for diagnostic or therapeutic applications. Please refer to the Safety Data Sheet (SDS) for complete handling and safety information.
